

The Quran and the West

Kenneth Cragg (1913-2012) was one of the West's most gifted interpreters of Islam. In this deeply insightful, classic work of Quranic studies, he argues that the West must put aside a spiritual imperialism that draws on Western precepts alien to Muslims and learn to come within Islam. Only then can a conversation begin that can relieve the misunderstandings and suspicion that has grown between Islam and the West in the years since 9/11. Cragg's close and thoughtful readings are as timely and relevant now as they were when *The Quran and the West* was originally published. With skill and nuance, he illuminates the difficulty that ensues through the Scriptures' contradictory teachings on Islam's manifestation in the world? teachings that have brought about a crisis for modern Muslims living in both the West and the westernizing worlds, where a Muslim's obligation to Islamicize is met with anxiety and distrust. *The Quran and the West* offers a means of study that reaches for a deeper knowledge of the Quran, engendering a new understanding of its holy teachings and opening a means for a fruitful discourse.
