

# Property and Casualty Insurance License Exam Manual, 6th Edition Revised

This course surveys property and casualty insurance principles and concepts common to all state producer licensing exams, giving students the relevant information they need to help pass the exam on the first try. The text is intended as a comprehensive introduction to property and casualty insurance. Topics include industry regulation, underwriting, property insurance, personal lines, commercial lines, inland marine, commercial floaters and federal programs, crime insurance and bonds, and workers compensation. The text features interactive learning aids that enhance the users understanding of key concepts and improve retention. Hundreds of questions with rationales and a final exam are also included within the text.
