

Scorpio Sons 6: Caleb (SF/Shifter Romance)

Arianna McDougall is an unemployed, High School drop-out, still living at home with her parents on the Scottish Isle of Arran. Conventional, religious, and black, she is horrified by the outrageous bad-boy who arrives at her door looking for the White Mouse. Because Ari isn't what she seems, and marrying Caleb Devereaux and telling him her secrets is the last thing she ever thought she'd do. Caleb is many things: a redneck punk-rocker, an IT geek, and a genetically-engineered warrior clone fighting to save the world. But there's a lot more to him than that beneath his easy-going Southern Charm. When he finds and claims his mate, Ari turns out to be the last woman he would have wanted, even if she's also just the woman he needs. And while others discover answers to the mystery surrounding their creation, Caleb must find answers from his own past to gain the peace and fulfillment only Ari can give him.
