

Bad Medicine:The Edge of Texas~Bk I (Romantic Thriller) (THE EDGE OF TEXAS Series Book 1)

5***** Review~ The suspense story line was perfectly done. I never knew from one moment to another how the story was going to turn. It kept me guessing and COMPLETELY involved with the story. It was ALL so good...both the romance and the suspense. It was just a superbly written book. I stayed on the edge of my seat and with my nose buried in the book until I got it finished...and then I was sad that it was over. Description: You're too stupid to live, Rafael Solis! Chloe Palmers words still echoed in Rafael's memory. The last words she said before she shot him and left town. Unable to escape her past, Chloe returns to the Texas coast for her murdered father's funeral and to face Rafael, the man she left behind. Rafael never gave up on her. Rafael's passion breaks down her emotional barriers, but her impetuous nature draws her into a cruel vortex where she runs afoul of old and new enemies. Previous rivalries emerge, pitting Rafael against the heir-apparent to a crime dynasty. With the body count rising, Rafael and Chloe battle an infatuated but vicious drug lord, kidnappers, and a twisted curandero (Mexican healer). Will they survive the violence and be able to forge a life together? THE EDGE OF TEXAS Series:
