

London Gothic (Hellogon Series Book 1)

The author of Wizards, The Spellbinder & Inspector Monde does it again. Lies, deceptions, spies, economic espionage and murder. That's what Peter Craig is running to London from, but a wise man knows that sometimes what you run to can be worse than what you are running from. Who is the strange goth girl who makes doors from shadows on a wall and walks right through them? Who is the enigmatic Chinaman who enters his life and tempts him with naked women? Peter can feel the forces gathering around him. He will meet vampires who can suck dry his soul when they aren't trying to poison him, warlocks and dragons, all on the streets of contemporary London. But this is the game he was born to play and the only question is how many of his enemies will still be standing when the game ends?
