

Captain Cooks Journal First Voyage

One of the great explores, navigators, cartographer and captain of the 18th century was Captain James Cook sailing over thousands of miles of uncharted areas of the globe. His discoveries were some of the most important of the English nation. He charted parts of Newfoundland, Australia eastern coastline and Hawaiian Islands. The charting of the Australian coastline made way for colonization. The Endeavour returned to England after its third voyage after losing its captain in a fight with Hawaiian natives, it was decided that the full account of the voyage should be compiled.
