Werewolves are tenacious creatures, hunting their prey -- and their lovers -- with deadly accuracy. Rarely do they miss their mark. Give that wolf a human form and he's almost invincible. Except when it comes to matters of the heart. Their lovers aren't the type to submit easily. It will take all their skills -- both human and lupine -- to get what they want. But then, they never settle for anything less. *Werelock* by Dakota Cassidy Addison Ross agrees to go on an All Hallows Eve pumpkin picking expedition to appease her niece and nephew. Hoo boy does she ever pick a winner. Beneath her pumpkin lies a talisman that brings the delish Caleb Marsden into her life.
