Even after a decade, the life that journalist Brent Walsh and Milwaukee homicide detective Shawn Mackey have made together is far from boring. But when a new case cuts a weekend getaway short, they aren't quite prepared for how it will impact their personal lives. Suddenly there's too much to juggle: Shawn will be working the case of the sharpshooter who is trying to infect random people with HIV, Brent needs to cover the story but fears a conflict of interest, one of Shawn's colleagues is attracted to him, and Brent sincerely needs to mend the painful break with his childhood best friend, Ollie, and heal their broken hearts. Though the case comes to a close, it's not the end of their troubles. Shawn and Brent still face a past of old white lies, a present possibility of inviting another man to their bed, and a future with children, not to mention health issues and national fallout from the case. It's enough to make them want to run away?until they realize they have to face those challenges head-on so they can get on with the life of love they're hoping for.
