

Heart of the Falcon: A Falcon Novel (Falcon Novels (St. Martins))

Madelyn Taggart has shattered her share of glass ceilings. As a young engineer at a Houston oil company, she's managed to make it in a mostly older, all-male, all-white industry. But her success has come at a high cost to her love life. So far this classic beauty has made zero headway in finding the man of her dreams until she sees a photograph of one of her brother's friends, and is determined to meet him. Daniel Falcon is a bit of a Lone Star legend. He's off-the-charts handsome and very, very rich. All the ladies entertain fantasies about being the one and soon find out he's not the type to settle down. Then Daniel meets his friend Matt's little sister. This Madelyn clearly has eyes for him but there's something about her that makes Daniel take a closer look. She's clever beyond compare, and ambitious, and sexy as the day is long. Is she soul-mate material? For the first time Daniel can remember, he's going to take his time to find out? beginning with one slow, passionate embrace
