

We The Corporations: How Corporations are Outsourcing We the People

Rescuing America from Corporate Greed Depends upon We the People The Preamble of our Constitution places the reins of our government into the hands of we the people. But corporations have purchased those reins through their billions of dollars given to the politicians of both major political parties every year. This treachery has been accomplished according to a: ...preconceived plan to destroy the economic and social independence of the United States. (Senator George W. Malone, 1962) This treasonous coup has been primarily orchestrated through treaty laws, like NAFTA. Treaty laws can override the Constitution...and they can cut across the rights give to the people by their Constitutional Bill of Rights. (former Secretary of State, John Foster Dulles in a speech given to the American Bar Association on April 12th, 1952) It is up to we the people to unite and stop this selling out of Americas sovereignty. In these pages, we will examine how we got into this position and how we can get ourselves out of it, on behalf of our common posterity.
