

A Goal For Me

Do you remember money conversations with your parents? In *A Goal For Me*, TV, radio host, and now book author Richard Brown shares with readers a new perspective on these age-old conversations. This African American family starts talking very early about setting goals especially financial goals. Save some, spend some and investment some is part of the daily conversation within the family. Richard Brown's simple story engages young readers. The book speaks to young children and sets the stage for future conversations about finance, wealth, assets, and fiscal control. The story is an opportunity to discuss how money shapes decisions every family faces.
