

Werewolf Magic & Mayhem

Werewolf Magic & Mayhem (Magic & Mayhem, Book Two) So there I was, trying to think of some new way to tap into my powers, when a boy walked into the shop and I got a witchy tingle... Young witch Emily Rand and her crow Familiar, Bob, are back for a full length bout of magical mayhem. Emily is approached by a handsome werewolf called Fletcher who wants her to cure him of his affliction. Despite her lack of experience, Emily decides to try to help Fletcher. Unfortunately her spells aren't known for going according to plan, and Emily accidentally divides Fletcher from his human body and brings forth his inner wolf in a very real sense. Now she has to find a way to put it right by the next full moon or Fletcher will be stuck as a wolf forever. I just adored this romance, it was like Buffy and Angel all over again, forbidden love is my favourite! Judy Millar - Blog Reviewer Thrilling and exciting, yet still light and funny. How does she do it?
