

Set Up A Wordpress Website: One That Works (Home Based Business)

Why You Need This Book! Communicate with the World Setup A WordPress Website One That Works will guide you through the process of setting up a WordPress website, step by step. Have you always wanted your own blog but not know how to set one up? Is it your dream to be able to blog and tell others about your interests or your small business? Have you tried to set up a blog before but have not been able to figure it out? Have you got a website but it is just not working right or you dont know how to make it do what you want it to? I just had to write Communicate with the World Setup A WordPress Website One That Works because when I first started out in internet marketing 7 years ago all I could do on the computer was write a letter, I barely knew how to print anything and I was just learning how to email. Before that I just had not bothered to learn much about computers at all! But that all changed when I wanted to work from home and set up websites to share my knowledge and interests. When I attempted to set up my first website it was the most daunting thing I had ever done. I have done lots of hard stuff in my life but I thought building a website was going to be beyond me. I have to admit that I shed a few tears along the way and there was a lot of self-talk to keep me going. I can keep you from all that frustration with Communicate with the World Setup A WordPress Website One That Works How is This Book Different? With Communicate with the World Setup A WordPress Website One That Works you will not only be able to read about buying your own domain name and setting up your WordPress website, but you will be able to download a PDF that is loaded with screen shots so that you can actually see what to do. There are recommendations of websites to use, but of course that is not obligatory. There are also links to my business website,

HomeBusinessSuccessIdeas.com so that you can see what I am talking about and there is the odd link to articles in my website talking about domain names and business names and other information that I am sure you will find very handy. Whats Important? If any of the links dont work, simply contact me at HomeBusinessSuccessIdeas.com, and Ill get back in touch with new link info.
