The world of ARS, a land built and maintained by a divine corporation, returns in an all new and more dynamic manner. Join Scott once more as he comes to grip with a far more dangerous reality in the classic server. Hilarity and drama ensue as he explores a whole new, yet familiar world. In this volume of the Origin ARS saga, Scott has to deal with a violent a difficult dungeon, and is introduced to what war is like on a fantasy world. Will he survive? Will he find his place in this strange new server? Only time will tell. Origin ARS is a light novel series that is part of a wider concept known as Project Scott. It is a writing concept that utilizes a similarly named main character in various different world settings to see what a similar character would do in often wildly different situations.
