

Paradox - Equilibrium (Book 4) (Paradox series)

For years, the truth was concealed from Grace Connors, masked cleverly by coercion, denial, and make believe. Grace always felt that there was a part of her that didnt resonate with this world, as if she were a square block in a round hole. When her father died, it was her mothers unconditional love, Wades fatherly presence, and Angela, Graces quirky next door neighbor that gave her strength. United, they were her beacon, the lighthouse that guided her in from the storm. That was until she learned the truth And the truth, Grace discovered, regardless of what shed been told, does not always set you free. Make no mistake, the Grigori is the Original Vampire, and regardless of what you believe, they are here, walking among us, and they intend to stay.
