

You Can Lead an Atheist to Evidence, But You Cant Make Him Think: Answers to Questions from Angry Skeptics

In this entertaining and enlightening new book, Pastor Ray Comfort, author of the million-selling *The Atheist Test*, talks to the atheists and reveals not just the weakness of their arguments but the solid foundation upon which the Christian stands. Few books take the time to address the atheists conscience. This book not only gives empirical evidence for the existence of God, it shows atheists that they desperately need His forgiveness. Using a lively question-and-answer format, featuring actual questions from atheists sent to Pastor Comforts blog at Atheist Central, *You Can Lead an Atheist to Evidence, But You Cant Make Him Think* shows that Gods existence can be proven, and that anyone can do it.
