

Dont Tell Anyone (Trager Family Secrets Book 2)

Winner, The Kindle Book Reviews Best Indie Books Award for Literary Fiction and indieBRAG medallion honoree. Liza's mother-in-law once called her a godless hippie raised by wolves. Now, after five years of marriage to her elder son, five years of disapproval and spite, the family accidentally learns that Estelle has a fatal illness. And Estelle comes to her with an impossible request. A horrified Liza refuses but keeps the question from her husband and his brother. As the three children urge Estelle to consider treatment, their complicated weave of family secrets and lies begins to unravel. Can they hold their own lives together long enough to help Estelle with hers? (Reader note: Although it's Book Two in the Trager Family Secrets Series, *Don't Tell Anyone* is a stand-alone story.)
