

## Back East: An Apocalyptic M/M Romance (Hearts Compass)

Where do you want to be when the world ends? BACK EAST - an apocalyptic M/M Romance. Electricity is gone. Society is on its knees. The hearts compass becomes the light in the darkness. Eli, an intern for Channel Seven News, finds himself on a bus full of hockey players from the New York City Gay Hockey Association. His boss thought it was a good joke to play on the new kid, but Eli has no problem with the assignment, especially when he befriends the Ice Giants winger, a real giant of a man, David LaMonte. When the power goes out and their bus crashes, Eli and David suffer through loss, and find comfort from one another as the world descends into chaos. About the Hearts Compass series: Our heart has its own compass. It knows where we should be heading, even if the rest of us doesn't. Through loss and love, our hearts compass guides us through life, often to somewhere completely unexpected. When the world ends, the hearts compass of several people has them headed in directions they may have never traveled otherwise. Each book in the series is a stand-alone, novella-length story, but is written within the same fictional setting in which the Earth has just been struck with several massive solar flares. All modern technology has been rendered inoperable. Cars, computers, city infrastructure, phones all gone in an instant and without warning. In the days directly following the end of the modern world, people must learn to depend on each other, and on their hearts compass, if they hope to survive.
