

Soar Above it All: Overcoming Adversities in Life

On May 1st, 1989 Sue London stared blankly at the ceiling of her doctors office, thinking Why me? Sue had just been told she had Crohns disease. In 1996, Sues illness flared up again and her intestine burst. She was rushed to the hospital and doctors predicted that she was just thirty minutes from death. Fortunately, a talented surgeon was able to act quickly and save her life. Following this dramatic event, Sue began to take proactive steps to health and happiness. Faced with a giant stop sign, Sue made the left turn of a lifetime, adopted a positive outlook, and never looked back. Sue went on to publish her inspirational life story, Soar Above It All-Overcoming Adversities in Life. This is a story of challenges and triumph over illness, abuse, disease, divorce, and near death.
