

Taming the Enforcers Flirt (A Paranormals Love Book 4)

Cornelius Roister is a flirt, has been since coming out. He lives loud, proud, and for the moment. What only his best friend, Gustav Gus Hermance, knows is that its a defense mechanism, an act, used to keep people from getting too close. People that are close can hurt you, and hes had enough pain to last him a lifetime. When Cornelius visits Gus at his new home, he is ecstatic to discover his mate in Einan, a gargoyle enforcer. Until him and large-and-in-charge Einan have their first personality clash and then their second. They just cant seem to carry on a conversation without disagreeing or arguing. Is Cornelius mating doomed before it even gets started? Or can Cornelius and Einan find some common ground?
