

After the Storm

Jenny insisted she would never fall in love again, but she found herself drawn to the handsome Earl of Danfield. She also knew about his wild reputation, but it didn't matter. His proposal would give her what she wanted. Peace. It would be a true marriage of convenience. The earl would secure his inheritance. And she would be spared the necessity of being paraded in society and forced to dance and flirt and do all the things her broken heart could not do.

Jenny thought she had arranged everything, but life is never that simple, and there were others in the wings with plans of their own, plans that would take her to the edge of danger!
